

Platform Tool Patterns

ADA TACTILE WARNING SYSTEM*

INCRETE® CUSTOM MOLDS

INCRETE can create any custom mold and duplicate any surface known to man whether it's a company logo or an entirely new pattern.

INCRETE® TOOL PATTERNS

General Information

- The complete line of INCRETE Systems tool patterns are illustrated.
- Tool patterns are exact reproductions of real surfaces, molded to precise specifications and manufactured in a controlled environment.
- Tools are elastomeric which improve both texture and pattern definition, and are indestructible under normal installation, maintenance and storage conditions.
- Tools are available in both rigid platform and flexible liner formats.
- Some contractors do not have all patterns available for immediate use.
- Additional patterns are available.
- Custom patterns can be created.

Consult you INCRETE Systems contractor, sales representative or INCRETE Systems directly for further information. Lead is required on both stock orders
